ON EVERY SITE

Built in from day one, not add-ons

- **WhatsApp and tap-to-call**
  On every page, built for the phone first.
- **Map and Google Earth fly-to**
  Your pin, one-tap directions, and a 3D fly-in over your building.
- **Found on Google and in AI assistants**
  SEO, plus the facts ChatGPT, Gemini and Perplexity need to describe you correctly.
- **Your numbers, in your name**
  Google Analytics and Search Console set up on your own account.
- **Facebook or Instagram window**

Post once, and your website shows it too.

Yours to keep

Domain in your name, a full copy of your site files, no exit fee.

HOW IT WORKS

From chat to live site

1. **Book a consult**
   A short call to agree what the site needs and which package fits.
2. **Deposit and content**
   R2 000 deposit, your domain details and a few content questions.
3. **We build, you review**
   A private preview and two rounds of changes, included.
4. **Go live**
   Balance on hand-over. The site, the domain and the files are yours.

Let's talk about your site
